Finding solutions to the I-5 to 99w Challenge

Moving Forward: The I-5 to 99W Connector project is aimed at reducing congestion and improving safety in the southwest Portland area. Your help is needed to begin narrowing alternatives down to a preferred solution.

Get up to Speed at the project website:
www.i5to99w.org

Detailed information on the range of alternatives is complete.

Copies of the Alternatives Analysis Report are now available for review on the project website. Please check the website or project hotline (503.595.9915) for other review copy locations.

Please plan to join us for one of the following open house hearings to comment on the analysis findings and to learn more about the project alternatives

Tuesday, June 24th, 2008

6 p.m. to 8:30 p.m.—Archer Glen Elementary School
 16155 SW Sunset Blvd., Sherwood

Wednesday, June 25th, 2008

6 p.m. to 8:30 p.m.—Tualatin High School
 22300 SW Boones Ferry Road, Tualatin

Thursday, June 26th, 2008

6 p.m. to 8:30 p.m.—Wilsonville High School
 6800 S.W. Wilsonville Road, Wilsonville

Drop in at your convenience to any of the open house forums; the same information and opportunity for input will be available at all meetings.

Public comments relating to the Alternative Analysis Report will be received until July 30th

Accommodations for persons with disabilities, language interpretation assistance or alternative formats can be available upon request. Please call TDD (503) 986-3854 at least 48 hours before the meeting.
